MORMONS TO KEEP ARMS

American Consul Serves Notice on Rebel Commander

El Paso, Texas, Feb. 14.—American Consul Edwards in Juarez protested today to Enrique Portillo, commanding the rebels in the Casas Grandes district, against recent demands made upon Mormon colonists for their arms.

Consul Edwards informed the rebel commander that their arms were the only protection the Mormons now have and they would not surrender them.

So far as authorities in Juarez know, Casas Grandes and vicinity are still in rebel hands, regardless of telegrams from Mexico City that Orozco has effected a compromise with them. No attempt is being made to re-open the Mexican Northwestern railway by rebuilding bridges.

DATE FIXED FOR DARROW'S TRIAL

Los Angeles, Feb. 14.—The setting of Clarence Darrow's trial on the indictment charging jury bribery, which was scheduled for today, was continued until February 23. The court proceedings today were monopolized by Darrow's attorneys in an effort to establish the fact that some of the grand jury testimony had been withheld. The defense contended that the transcript was incomplete. The assertion was made that testimony of sixteen of the thirty-two witnesses whose names appeared on the indictments was put into the transcript.

The prosecution argued that the law permitted the compiling of a partial transcript, and added that no stenographer was present when the other witnesses testified.

The defense called to the witness stand Leontine Davis, associated with Darrow in the defense of the McNamara brothers, who was a grand jury witness, and C. E. Hubbard, foreman, and A. L. Phillips, secretary of the grand jury. Davis stated that he had been queried about Darrow and Bert Franklin, the McNamara detective, also charged with jury bribery and developed that Davis' name did not appear on the Darrow indictments nor his testimony in the transcript.

The court ordered that the defense be furnished with a copy of Davis' testimony and set April 23 as the time for fixing Darrow's trial and ruling on the objection of the defense.

SCHEDULE OF THE NATIONALS

NEW YORK, Feb. 13.—The National league baseball schedule for 1912 was adopted and made public at the meeting of the league club owners here tonight.

The schedule provides for 154 games, but the season will be three days shorter than last year, beginning one day earlier and closing four days earlier. The season will open April 11, New York at Brooklyn, Philadelphia at Boston, Pittsburgh at St. Louis, and Chicago at Cincinnati. The season will close on October 8.

Although the schedule was adopted unanimously, it was discussed for hours. Charles W. Murphy, of Chicago, was the most dissatisfied member because of conflicting dates with the American league on five Sundays during the season.

The only other work accomplished was the approval of a staff of umpires, including two men arbitrators. Clarence Owens, of Kansas City, formerly with the American Association, was appointed to take the place of Hank O'Day, who has become manager of the Cincinnati club, and G. C. Rush, of Deventer, Iowa, was appointed an emergency umpire.

The veterans will be retained as follows:

R. D. Emslie, Johnstone, William Brennan, Mal. Eason, W. Flanagan, William Klem and Charles Rigler, Klem, Rigler and Owens each signed a contract for the season.

No suggestion of changes were reported by the rules committee. Chairman John M. Ward said it was not likely any changes in playing rules would be made this year.

GOOD ATTACKS POWDER TRUST

WASHINGTON, Feb. 13.—Representative Good, of Iowa, an attack on the powder trust in the house today. He sought to provide in the army appropriation bill a limitation on the government's purchases of small arms ammunition, declaring that congress refused the payment of claims that had been disallowed by the courts.

Representative Butler Ames of Massachusetts referred to Mr. Good's remarks as "neutrotic," and declared that as manufacturers of small arms were customers of the powder trust, a blow at the trust would be received by the manufacturers. Mr. Good's amendment was beaten.

Representatives Moore of Massachusetts and Prince of Illinois attempted to restore the same items in the appropriation for ordnance as were allowed in the last Republican bill, but their efforts were defeated by Chairman Hay of the military affairs committee.

TURKS FAIL TO RUSH ITALIANS

DERNA, Tripoli, Feb. 11.—(Delayed in transmission.)—The Turks in force made two determined attempts to rush the Italian line last night, but were beaten off after desperate hand-to-hand fighting.

The Turks lost sixty killed, while the Italians' casualties number three killed and twenty-two wounded.

PALZER DEFEATS WHITE

NEW YORK, Feb. 13.—Al Palzer of New York, the heavy-weight who recently knocked out Al Wadman, was far too strong for Salter White of Brooklyn, knocking out his opponent with a heavy right to the jaw in the fifth round of a scheduled 10-round bout, here tonight. Palzer's heavy body punches weakened White.

CONTRIBUTION TO DEE HOSPITAL

The Young Women's Mutual Improvement association of North Weber stake has donated to the Thomas D. Dee Memorial hospital 300 quarts of fruit and a quantity of jelly in glasses. Such a contribution is very much appreciated by the hospital for it is not possible to obtain home-canned fruit for patients, except through public donation. The M. I. A. of the Weber stake Ogden stakes expects to send a similar donation in the near future.

During the past year such articles as picture books and toys for the use of children and magazines and books for older patients have been received by the hospital and on several occasions sent flowers to surprise each lady patient in the hospital with a beautiful bouquet.

The idea of doing something to brighten the lives of those who are suffering and disabled is one worthy of cultivation. This sentiment is growing with the Ogden public and in time probably will result in the organization of a hospital aid association such as is found in most other cities of the size of Ogden.

SANDWICHES FOR CITY TEAMSTERS

Chicago, Feb. 14.—James S. Templeton, the board of trade operator who contributed \$1,000 for the distribution of coffee and sandwiches to crossing policemen here recently, has completed arrangements for furnishing the same refreshments to teamsters.

He has arranged to have coffee and sandwiches furnished at a downtown drugstore between 6 a. m. and 7 p. m. Mr. Templeton said last night that he was giving away that portion of his income not needed to support his family.

MORGAN SHUSTER SAILS FOR HOME

SOUTHAMPTON, England, Feb. 13.—W. Morgan Shuster, who today was shown the dispatch from St. Petersburg about the detention of his associate in Persia while on board the North German Lloyd steamer George Washington, on which he is proceeding to New York, said:

"I know nothing of this matter, but presume that it is a continuance of the campaign of the Belgian officials to foster M. Mornard's candidacy for the treasurer-generalship of Persia, by moving favorably on the Russian government and to hamper Americans. My accounts were balanced to a cent with the Imperial Bank of Persia when I left on January 11. I regard the charges as absurd on their face and purely political."

HISTORICAL SCHOLAR DEAD

New York, Feb. 14.—Louis Hellprine, historical scholar and encyclopedist, is dead at his home here after an illness of several months. He was 60 years old.

Mr. Hellprine was born in Hungary and came to America when 5 years old. He assisted in the revision of the American Encyclopedia when barely out of his teens, and later served on the editorial staffs of the Century Encyclopedia and the new International Encyclopedia and the Britannica. With his brother, the late Prof. Angelo Hellprine, he prepared the last Lippincott's Gazetteer. He was a linguist of unusual attainment and a frequent contributor to the magazines.

SALT RIVER FARMERS WANT MORE TIME

Phoenix, Ariz., Feb. 14.—The Salt River Valley Water Users' association decided today to ask the government to extend for ten or twenty years the time for payment of the nine million dollars due on the Roosevelt dam. As the law creating the big irrigation project now stands, payment on this huge sum must be begun this year.

John Orme, president of the Water Users' association, and Dan Jones, president of the executive council of the same organization, will leave here tomorrow night for Washington where they will endeavor to have the law amended giving the additional time.

CALIFORNIA PROHIBITIONISTS ARE SHUT OFF FROM BALLOT

SAN FRANCISCO, Feb. 13.—Failure to poll three per cent of the vote of the state at the general election held in 1910 deprived the prohibition party of the right to be represented on the ballot at the presidential primaries to be held next May, according to an opinion sent out today from the office of Attorney General E. S. Webb. The opinion was in response to a request made by Secretary of State Frank C. Jordan.

ROMANCE OF THE BEAUTY DOCTOR

Since the arrest in this city more than a week ago of Mr. and Mrs. Rathlou, said to be beauty specialists and wanted in Colorado Springs for obtaining money under false pretenses, a number of interesting facts concerning the pair have developed.

According to the story told by Mrs. Rathlou, or Rathlou as it has now developed is her real name, her husband is a son of Baron C. F. E. von Holstein Rathlou of Odder, Denmark, and she is the daughter by morganatic marriage of the son of the present emperor of Austria. Enshrining their romance is a story of love and intrigue that wrenched royal hearts and astounded noble families throughout Denmark and Austria.

For the love of the athletic, dashing count, who was visiting in America at the time, Mrs. Leonora Collins, wife of Dr. Roy A. Miles Collins, who was later shot and killed in Portland, Oregon, in 1909—a woman in whose veins is said to flow the romantic blood of the Hapsburgs—eloped from her husband's home. Since their marriage in St. Louis in 1908, the couple have embarked on a career of adventure and romance seldom heard of outside of popular novels.

In marrying the bewitching Mrs. Collins, Rathlou sacrificed home, position and friends and all the luxuries to be provided by those who have millions at their command. Some time after, however, Rathlou's father relented somewhat and the pair went to Denmark, but the reception accorded Mrs. Rathlou by her husband's parents made life unbearable and they returned to America after a few months. It seems that in New York they picked up a Danish boy for whom Rathlou felt sorry and, as he had no money, they determined to bring him west with them. As they had but little money, they were unable to purchase tickets for all three to California, where they expected to settle, but only could secure them as far as Colorado Springs, which, according to Mrs. Rathlou, accounts for their presence in Colorado. Upon their arrival in Colorado Springs it was necessary that money be procured in some way, so Mrs. Rathlou opened a beauty parlor, agreeing to give special courses for \$50. About this time Mrs. Rathlou says she received \$1,000 from her stepfather, by another marriage, but the same day it was received the boy whom they had befriended disappeared with it and, as he had said he had relatives in Ogden, they thought he had come here and she and Rathlou immediately started for Ogden. Thus she accounts for their presence in this city.

Since their return to Colorado a cablegram has been sent to Rathlou's father in Denmark and an answer is being anxiously awaited. It is said that there are documents and pictures in possession of Mrs. Rathlou which prove beyond doubt that Rathlou is the son of the Baron Holstein Rathlou, and, if such is the case, under the Danish law, he will at one time come in for a share of the millions which his father is said to possess.

Mrs. Rathlou's husband, who was confined in jail with her here, is now reported to be quite ill, and all day long Mrs. Rathlou sits beside him, complaining of the misfortune which has brought them disgrace and declaring over and over that both she and her husband are innocent of any wrongdoing.

Ever since their arrest the Rathlows have tried to conceal their identity and have denied several times that they were connected with the nobility, but at last the fact has been established, and both are counting the hours until the answer to their cablegram shall arrive.

GOVERNMENT HAD AIDED IN POLITICS

Washington, Feb. 14.—The house inquiry into the Florida Everglades was enlivened today by testimony that the department of agriculture in times past had sent some of its experts on campaign tours with congressmen seeking re-election.

J. O. Wright, formerly in the department, but now chief drainage engineer of Florida, said that, in 1908, he was detailed to accompany Representative John H. Small of North Carolina, Democrat, to Washington, D. C., during a campaign.

Four other agricultural department employees, he said, went along. The government paid the expenses, Mr. Wright said.

Other candidates he had helped, he said, were Representative Goodwin and Representative Thomas of North Carolina and Representative Russell of Louisiana.

RIDICULES THE COURT DECISION

Pasadena, Cal., Feb. 14.—George W. Perkins, who recently retired from active work as a partner of J. P. Morgan and who is a member of the winter colony here, in an interview today ridiculed the effect of the supreme court decision dissolving the Standard Oil company and the tobacco trust.

"The principle in this case," he said, "seems to be that dissolution is a solution of the problem. This has turned out to be a farce. The Standard Oil company has been broken up into 29 parts and the price of oil goes up."

SHUSTER TO SPEAK

New York, Feb. 14.—W. Morgan Shuster, the American treasurer-general of Persia, who is returning to his country after his unusual excursion into international politics, will make his first public speech in this country before the New York Suffrage organization, the Woman's Municipal league. He has called his acceptance of the league's invitation to speak at its meeting on February 29.

LIVES SAVED BY AN OXYGEN PUMP

Washington, Feb. 14.—Thousands of lives will be saved in the future, in the opinion of bureau of mines officials, by means of an oxygen pumping apparatus with which the bureau's workers, during the last year, restored to life more than thirty persons who had ceased breathing.

By means of the lung filling and emptying machine used by the bureau, oxygen is forced into the lungs, the poisonous gases are drawn out and breathing becomes normal. The machine acts automatically, any effort on the part of the individual hindering rather than helping it.

In drowning cases, gas poisoning and electrocution accidents there were many revivals by the prompt use of the oxygen device.

Hundreds of inquiries have reached the bureau of mines from hospital physicians and municipal authorities, asking about the value of the machine.

An official of the bureau today said that in his opinion the time was near when every police patrol would be equipped with one of the machines.

COLONY FOR THE CITY FAILURES

Chicago, Feb. 14.—Formation of the Warren Springer colony, an idea long cherished by the millionaire, who died a short time ago, is to be carried out by his widow, Mrs. Marguerite Warren Springer, to whom the entire estate, valued at more than \$2,000,000, was left.

SHAKE UP OF THE SALT LAKE POLICE

SALT LAKE CITY, Feb. 13.—The police department of Salt Lake was revolutionized today. An ordinance passed by the city commission and supposed to embody the best features of police regulations in 25 cities, gives the chief power to discharge without hearing any member of the force. The chief in turn, may be dismissed without warning by the commission. Twenty-three members of the old force have been discharged by the commission and thirty-four new men employed.

miles from Chicago is to be divided among families of the congested districts of Chicago. Here a social community for the industrial and educational betterment of people "lagging behind in the struggle for existence" is to be formed.

This colony is to be made the nucleus for other settlements. Each group of the work will be an effort to bring into effect the ideas Mr. Springer had regarding the solution of social problems. He protested always against city social settlements, arguing that the best results could be had only by taking the poor out of the city. The project was originally outlined by Mr. Springer and Oscar Lowell Triggs, former professor at the University of Chicago, who was ousted from the faculty a few years ago because of his utterances regarding great financiers. Triggs is now a member of the Tingley colony at Point Loma, Cal., and may be brought to Chicago to take charge of the formation of the new colony, according to Mrs. Springer.

REBELS OCCUPY MEXICAN TOWN

Torreón, Mexico, Feb. 14.—The robbery of the Penoles Mining company at Minapi, Durango, reported yesterday, is confirmed today. A large force of Vasconistas attacked the town and robbed the offices of the Penoles Mining company, where they secured \$1,000.

Valderina, 45 miles southeast of Torreón, was occupied today by the rebels without resistance.

The rebels refuse to permit the railroad company to repair the damaged bridges. Many rebels surround Torreón, which is guarded by 600 federal troops. Many refugee American women and children have reached here from Valderina, and can get no farther. An attack on the city by the rebels at any time would cause no surprise.

GOMPERS NOT NAMED.

Washington, Feb. 14.—The contempt of court proceedings against Samuel Gompers, John Mitchell and Frank Morrison of the American Federation of Labor were resumed before Justice Wright here today, with Mr. Morrison on the stand in defense of himself and his colleagues.

There was no intimation that Mr. Gompers would make a statement regarding the dynamite arrests. He already had declared that he knew absolutely nothing of any dynamiting.

No evidence, it was said here today had been procured against officials of the American Federation of Labor.
